Celestial nature of Qi

You learn by direct narration, dialogue, discussion and high intensity graphics how the far off Sun and the nearby Moon work to create the ebb and flux of the yin and yang aspects of the diurnal 24 hour horary cycle you will work with to heal

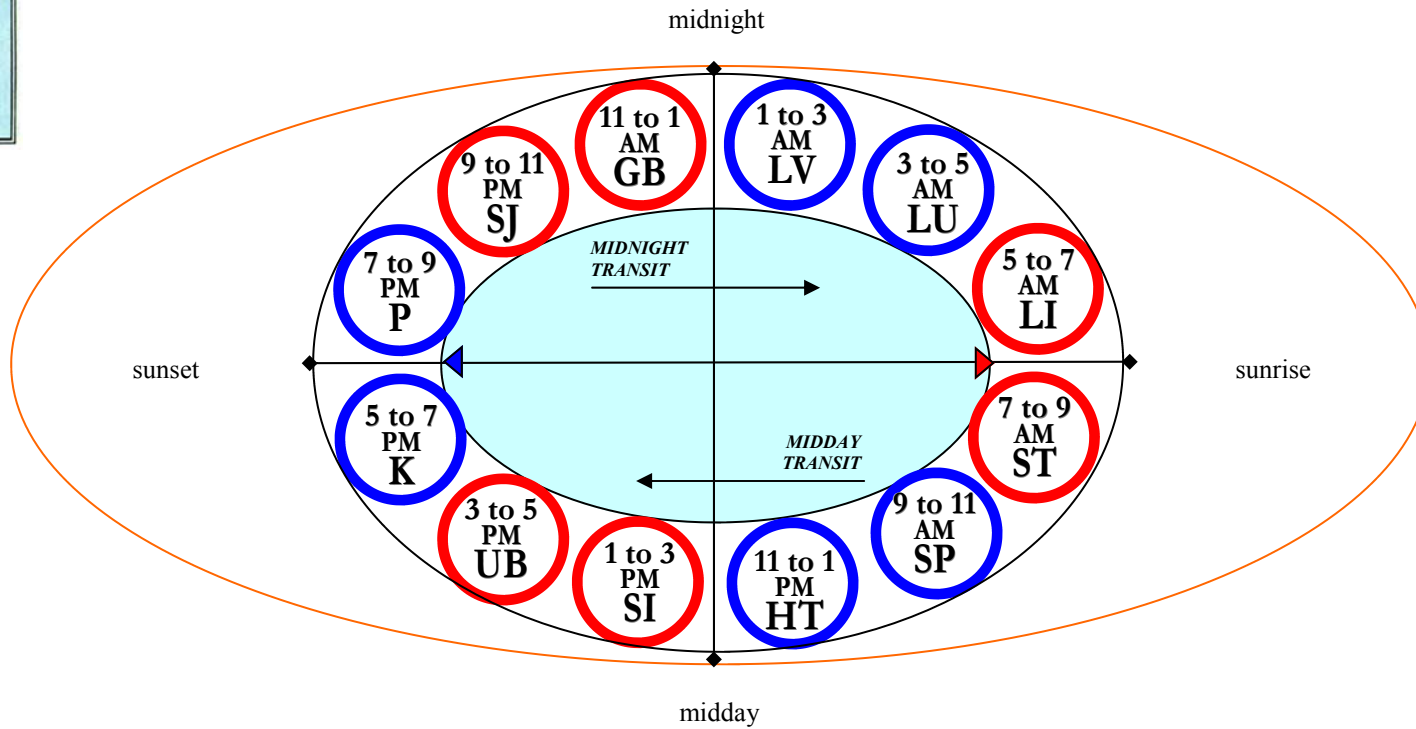

Qi pathways

You gain a sound basis in how qi differentiates into yin and yang and how it tends to energize the 12 vessels.

This knowledge helps differentiate illnesses according to their time specific phasality and offers specific high energy windows in which to treat..

5-Shu Point Locator

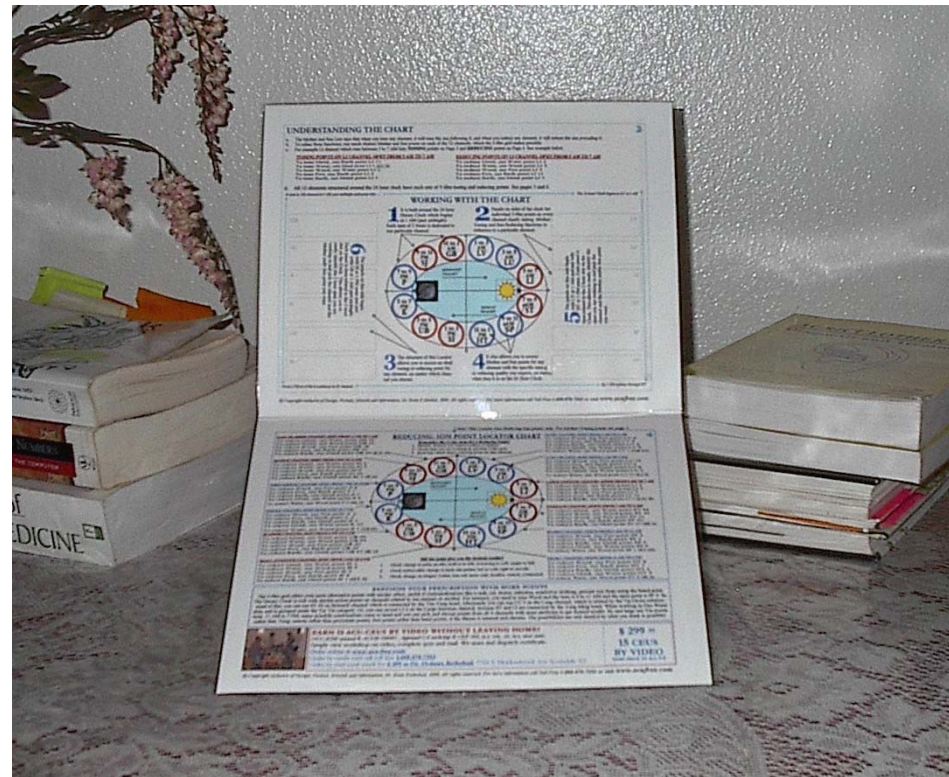

Once you have a firm grounding on celestial qi you begin work on the 5-Shu Point Locator created by Dr. Holmes Keikobad, based on the ancient models of qi periodicity and begin to apply exact, element specific points for any imbalance and expect spectacular results.

EXAMPLES

For a Metal Assaulting Wood migraine pattern:
Tone LU and reduce GB

The Locator will give you exact points in any 2 hour time frame round the clock in which you happen to be working.

Because the healing is bi phasal, you tone one element and deplete the other, the effect is quick with steady recovery and no relapse
